DEVELOPMENT AND PEACE – CARITAS

CANADA - Women protecting the Earth : In Brazil, the lives of several rural communities are disrupted by industrial agriculture, mining and the Carajás railway. Women are at the heart of the fight to protect the land and the environment from the air, water and soil pollution that they cause. This pollution damages their kitchen gardens and harms the health of their children, families and neighbours. Courageously, these women resist to continue to exist on their land. To assert and protect their rights, they formed a women’s association called Seeds of the Earth with the support of Justiça nos Trilhos (JnT), a partner of Development and Peace — Caritas Canada.
